

# MODERN JETSET

**Come fly the fancy skies!** Iris Berkeley is your pilot for Modern Jetset, a weekly round-the-world trip through music from soul to synthpop, reggae to R&B, Latin to lounge, and more. With a strong focus on new and recent releases, Modern Jetset also connects the dots between fresh new favorites and the vintage sounds and retro selections that inspire today's independent music landscape.

Modern Jetset has been heard weekly on Radio Rethink **since 2020** and on a growing number of terrestrial and streaming stations since then. With its multicultural, wide-ranging mix of styles, artists, and timelines, Modern Jetset **works well next to AAA, eclectic, and music discovery**, as well as **genre programs** including funk/soul, reggae, jazz, world, and others.
